From the most popular business turboprop family in the world, the BEECHCRAFT KING AIR 260 aircraft, is now equipped with a standard IS&S THRUSTSENSE autothrottle and a digital pressurization system which reduces pilot workload from takeoff to touchdown. The COLLINS AEROSPACE PRO LINE FUSION flight deck brings unprecedented situational awareness to the cockpit, making this turboprop easy to fly, even during single pilot operations.

**Max Range**
1,720 nm*

**Max Occupants**
9

**Max Cruise Speed**
310 ktas

**Useful Load**
3,760 lb

**Takeoff Distance**
2,111 ft**

*Range is based on a ferry mission at LRC with NBAA IFR reserves.
**Takeoff distance is based on a departure at sea level, max takeoff weight and ISA conditions.
ENGINEERED TO MEET MORE MISSIONS

REDUCED PILOT WORKLOAD
Drivable and digital precision reduce pilot workload, allowing plans to focus on completing the mission.

WEATHER TRACKING
The fully automatic Multiscan weather radar features turbulence detection technology. A de icing system and fast windscreen wipers enable flight in various weather conditions.

TWIN TURBINE POWER
Twin 850-shp Pratt & Whitney Canada PT6A engines with integrated Ram Air Recovery System deliver increased power, reliable performance and low operating costs.

TOUCHSCREEN AVIONICS
The latest Collins Pro Line Fusion avionics offers new features for better in-flight navigation.

LIGHTWEIGHT COMPOSITE PROPELLERS
Advanced composite propellers are light and reversible, ensuring excellent runway performance.

SOUNDPROOF TECHNOLOGY
Conversations made easy thanks to generous soundproofing and smart noise-cancellation technology.

CABIN AMENITIES
Executive seating, fold-out tables, USB charging and power outlets make the cabin both an ideal mobile boardroom and family room.

GENEROUS STORAGE
Large internal baggage area is heated, pressurized and accessible in flight.

PROVEN IN SPECIAL MISSIONS
Counted on globally for critical missions such as surveillance, maritime patrol, flight inspection and air ambulance.

CABIN AMENITIES

PROVEN IN SPECIAL MISSIONS
Counted on globally for critical missions such as surveillance, maritime patrol, flight inspection and air ambulance.

60 MILLION FLIGHT HOURS
King Air aircraft have flown in some of the harshest conditions on earth.

REDUCED PILOT WORKLOAD
Drivable and digital precision reduce pilot workload, allowing plans to focus on completing the mission.

AIRSTAIR DOOR
Step up your cabin experience with a strong airstair door. Support cables disconnect without tools, allowing you to load large cargo with ease.

RUGGED LANDING GEAR
Flows on rough airports worldwide. The landing gear info you take off and land on short, unpaved runways.

SOUNDPROOF TECHNOLOGY
Conversations made easy thanks to generous soundproofing and smart noise-cancellation technology.

Taking cues from its predecessor, the King Air 360 aircraft, the King Air 260 turboprop sports an entirely redesigned cabin, complete with reshaped cabinetry, resculpted sidewalls, new seat design—even illuminated cupholders. Choose from five new interior schemes and enjoy an artfully designed cabin built to suit your style.

CUSTOM COMFORT AND ENHANCED PRODUCTIVITY

The spacious King Air 260 aircraft cabin, with seating for up to nine, creates an environment of unparalleled comfort with ample head and shoulder room. Acoustic technologies deliver one of the quietest turboprop experiences available. While you work and relax in leather seats, maximize your in-flight productivity with optional wireless connectivity.

A NEW CLASS OF AMENITIES

Redesigned cabin

Built in refreshment center
CONFIDENCE OF SIMPLICITY

Pro Line Fusion avionics is an intuitive touch-control flight deck that simplifies how we aviate, navigate and communicate. Featuring iTAWS and TCAS I, Pro Line Fusion has enhanced situational awareness and standard synthetic vision. It’s where the power of simplicity meets cutting-edge performance, durability and reliability.

STANDARD FEATURES

- IS&S ThrustSense Autotrottle
- Digital Pressurization System
- Collins Aerospace Pro Line Fusion Avionics Suite
  - Three 14-inch Touchscreen Displays
  - Synthetic Vision System (SVS)
  - Graphical Flight Planning
  - Integrated Charts and Maps
- Engine-Indicating and Crew-Alerting System (EICAS)
- Dual Flight Management System (FMS)
- MultiScan Weather Radar System (WXR)
- Integrated Terrain Awareness and Warning System (iTAWS)
- Traffic Alert and Collision Avoidance System (TCAS I)
- Automatic Flight Guidance System (AFGS)
- Dual Navigation and Communication Radios

QUICK TO CONFIGURE

Collins Aerospace Pro Line Fusion avionics interface simplifies the setup of flight displays. Flight information is quickly organized with fingertip touches and swipes.

OPTIMUM PERFORMANCE

The King Air 260 turboprop reduces pilot workload with features like the IS&S ThrustSense autotrottle, which delivers precision control for optimized power output, including overtorque/overtemp protection for a more efficient takeoff. Digital pressurization automatically schedules cabin pressure on both climb and descent, increasing passenger comfort and further reducing pilot workload.

The Collins Aerospace Pro Line Fusion avionics suite simplifies the setup of flight displays. Flight information is quickly organized with fingertip touches and swipes.

The Collins Aerospace Pro Line Fusion avionics suite simplifies the setup of flight displays. Flight information is quickly organized with fingertip touches and swipes.
ENHANCED PAYLOAD AVAILABLE

The legendary carrying capacity of the King Air turboprop is now even greater. Take more passengers and more baggage to more destinations. The enhanced payload option allows the King Air 260 turboprop to operate in the commuter category at a gross takeoff weight of 13,420 pounds, which means you can carry five passengers with baggage and full fuel. Passengers may easily retrieve personal items during flight thanks to a fully accessible, heated and pressurized baggage area.

KING AIR 260 SPECIFICATIONS

EXTERIOR
- Wingspan: 57 ft 11 in (17.65 m)
- Length: 43 ft 10 in (13.36 m)
- Height: 14 ft 10 in (4.52 m)

INTERIOR
- Cabin Length: 16 ft 8 in (5.08 m)
- Cabin Height: 57 in (1.45 m)
- Cabin Width: 54 in (1.37 m)

BAGGAGE CAPACITY
- Weight: 550 lb (249 kg)
- Volume: 55.3 cu ft (1.57 cu m)

MAX OCCUPANTS
- 9

WEIGHTS
- Max Takeoff Weight: 13,420 lb (6,087 kg)
- Empty Weight: 8,500 lb (3,855 kg)
- Useful Load: 4,920 lb (2,247 kg)

POWERPLANT
- Manufacturer: Pratt & Whitney Canada
- Model: (2) PT6A-52
- Power Output: 850 shp ea (634 kW ea)

PERFORMANCE*
- Max Cruise Speed: 310 ktas (574 km/h)
- Max Range: 1,720 nm (3,185 km)
- Takeoff Distance: 2,111 ft (643 m)
- Max Operating Altitude: 35,000 ft (10,668 m)

ENHANCED PAYLOAD OPTION

The enhanced payload option increases max takeoff weight to 13,420 lb (6,087 kg) and useful load to 4,645 lb (2,107 kg).

* Performance data is based on standard conditions with zero wind. Field performance assumes a level, hard surface, dry runway. Range is based on a ferry mission at LRC with NBAA IFR reserves. Takeoff distance is based on a departure at sea level, max takeoff weight and ISA conditions.
YOUR CONNECTION TO OEM EXPERT SUPPORT

Maintaining a global fleet requires worldwide coordination and universal access to the knowledge of experienced support representatives. With you as our focus, we are fully committed to you and supporting your King Air 260 aircraft with general aviation’s largest global support network. You can count on Textron Aviation to be by your side with superior parts availability, competitive pricing and a robust distribution system. The quality of support you receive is always efficient, reliable and available 24 hours a day.

HIGHLIGHTS FROM OUR SERVICE NETWORK

- Textron Aviation has the farthest-reaching network of 21 company-owned service centers and the world’s largest parts distribution network.
- Over 30 mobile service and line station locations globally, so support is available wherever you need it.
- A robust e-Commerce platform to make parts purchasing quick and easy.
- 96% fill rate on parts shipments with 99.9% of in-stock items shipping the same day.
- Personalized ownership programs to assist with maintenance, parts purchasing and flight operations.

ADVANCE YOUR TRAINING

Aviation professionals worldwide rely on FlightSafety Textron Aviation Training to provide the highest-quality training and outstanding service for the Textron Aviation product line of Beechcraft, CESSNA and HAWKER aircraft. Our Learning Centers give our customers the confidence of knowing we’re focused on reliability, convenience and flexibility.

FLIGHTSAFETY TEXTRON AVIATION TRAINING

- Approved by aviation regulatory authorities worldwide.
- Access our fleet of 80 simulators at 14 centers.
- Most Learning Centers are conveniently located close to Textron Aviation Service Centers.
- Learn from experienced instructors committed to your proficiency and success.
- Each classroom and simulator experience delivers outstanding and unmatched quality.

VISIT SERVICE.TXTAV.COM TO LEARN MORE.
We advance the market by leveraging the latest technology in our Beechcraft and Cessna aircraft. These cornerstone brands account for more than half of all general aviation aircraft flying today.

We have delivered more than 250,000 aircraft over our 90 year history, exceeding 150 million turbine flight hours in over 170 countries. With more than 12,000 employees building new products and supporting you every step of the way, we continue to provide the industry’s widest-ranging offerings and most capable service.

Our portfolio features CITATION aircraft, the world’s best-selling business jets; King Air and CARAVAN aircraft, both class-leading turboprops; and advanced piston aircraft for transport and efficient pilot training.
